VEGWASH is a mild blend of organic soaps used in wash systems associated with vegetable and fruit processing operations. **VEGWASH** is designed for the price conscious processors seeking optimum washing characteristics.

VEGWASH may be dispensed through an automated monitoring/injection system, a timer pump system or hand dispensed. In any of these cases it is advisable to manually filtrate your wash solution and log results to ensure proper dilution is being maintained. It may be mixed with any sanitizer including chlorinated products.

DIRECTIONS

Add **VEGWASH** directly to water. Small amounts should be measured in order to determine how much should be used under various circumstances. Generally speaking 2 oz. per 500 gallons is a base starting point. **VEGWASH** begins to work when water has a slight slippery feel.

WARNING: Contains Phosphoric Acid

CAUTION: CORROSIVE LIQUID

AFSI Approved

OVEREXPOSURE & FIRST AID DATA

SKIN: When this product comes in contact with the skin it can cause mild irritation. If product contacts skin; flush exposed area with cool water for 15 minutes and consult a physician if tissue damage occurs or irritation persists.
